

# Vineet Sisodiya

**Location:** Greater Noida, India — **Phone:** +91 7830219095 — **Email:** [vinnrajput1510@gmail.com](mailto:vinnrajput1510@gmail.com)  
**GitHub:** <https://github.com/vinnrajput1510> — **LinkedIn:** [www.linkedin.com/in/vineet-sisodiya-29825a389](https://www.linkedin.com/in/vineet-sisodiya-29825a389)

## Summary

B.Tech Computer Science Engineering student specializing in Data Science with strong programming skills in Python and Java. Skilled in data analysis, power bi, machine learning, and statistical modeling with hands-on experience in real-world projects. Adept at applying data-driven approaches to solve problems and deliver actionable insights.

## Education

- **B.Tech. in Computer Science (Data Science)**-
- Noida Institute of Engineering and Technology, Greater Noida CGPA: 8.55
- **Senior Secondary** - Seksaria Sushila Devi Public School – 77.5% (2023)
- **Secondary** - Seksaria Sushila Devi Public School – 76.0% (2021)

## Internships

**Deloitte**-Data Analytics Job Simulation.(2025)

**Codetech-It solution** –Frontend development(2024)

## Projects

### 1. Deloitte Australia Data Analytics Job Simulation on Forage

Completed a virtual job simulation with Deloitte focused on data analysis and forensic technology as part of their consulting program. Developed an interactive data dashboard using Tableau to visualize key insights and detect anomalies. Utilized Excel for data cleaning, classification, and performing analytical operations to derive meaningful business conclusions. Gained hands-on experience in fraud detection, data-driven decision making, and applying forensic techniques to real-world scenarios.

### 2. Customer relationship management system

Developed a user-friendly CRM system to manage customer information and track service requests. • Integrated form-based data entry with file upload functionality for attaching relevant documents. • Used MySQL for backend data storage and Flask for building a responsive, lightweight web interface. • Designed to enhance customer service efficiency and ease data access for support staff.

### 3. Frontend Web Development Project

- Designed and developed a Netflix-inspired web interface using HTML, CSS, and basic JavaScript. Implemented responsive navigation bar, movie sections, and interactive UI elements to replicate the look and feel of the original platform.
- It usually contains links like Home, About, Services, Movies, Login, Contact, etc., and is placed at the top or side of a webpage.

## Certifications

- Deloitte Data Analytics Simulation (**Forage**)
- Programming Fundamentals using Python – Part 1 **Infosys Springboard (Infosys Ltd.)**
- TATA Data Visualisation (**Forage**)
- Microsoft- plan a AI document intelligent solution
- 

## Technical Skills

- **Programming Languages:** Python, Java,
- **Web Technologies:** HTML, CSS.
- **Databases:** MySQL.
- **Data Science Tools:** Pandas, NumPy, Matplotlib, Seaborn, PowerBI, Tableau.
- **Soft Skills:** Communication, Time Management, Analytical Thinking, Teamwork, Adaptability.
